Mr. Lincoln Elected by the People well as by the Electoral College. It is elamorously asserted by the oppo-position to the Republicans, that Mr. Lincoln, although elected President cons itutionally, by the peculiar mode of chosing electors, is a minority President, and could not have been elevied by the popular vote. Let us see. According to the prevailing method of choosing all other officers by popular vote—State as well as National, a plurality of the voters elects. It is not necessary that a condidate should

Dougles has to get a total vote of upwards of 600,000 in order to overcome Lincola's majority over him in the North.

Now, Douglas will full very far short of getting such a vote in the Southern States. Here is an estimate, based upor partial returns already received, and in it nations of the Douglas vote in quarters not yet heard from:

PROBABLE VOTE FOR DOUGLAS. Delaware 1.500 Maryland 4.000 Virginia North Carolina 25,000 15,000 South Carolina (Legislature elects) 0,000 Georgia 15,000 Alabama 10,000 Florida 500 Texas 1.800 Louisiana 10,000 Mississippi 2,000 Arkansas Tennesses 20,000 Kantucky 30,000 Missouri 69 000

Total 197.500 This estimate is perhaps too liberal for Douglas on several States, and may be insufficient on two or three. Against it, must be offset Lincoln's vote in the South ern States, the aggregate of which will be about 40,000. So that, even were the electoral college out of the way entirely. and the people voting directly for President, as for other officers, Lincoln would still be elected by a majority of from 400,000 to 500,000 votes over Donglas. And his majority over Breckinsidge and Bell would be still larger .- Cinc nati Commercial.

Saving Seed Corn.

Mr. F. Hulbrock, a distinguished farmer of Bintileborough, Vermont, bas published a long communication on the subject of cultivating Indian corn, in which we find the following mode adopted by him in selecting seed corn.

HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-TERIS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation heretofore anknown. A few facts upon this point will speak more powerfully than volumes of bare assertion or biazoning puffery. volumes of bore assertion or blazoning puffery. The consumption of Hostetter's Stomach Bitters for the last year amounted to over a half-million bottles, and from its manifest stendy increase in times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medicinal veneral examples. medicinal properties contained in the prepara-tion, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trum-peting the qualities of the Bitters, but a solid pering the qualities of the listiers, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

Hostetter's Stomach Bitters have proved a Godsend to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. To be able to state confidently that the "Bitters" are a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of unare a certain cure for the Dyspepsia and like diseases, is to the proprietors a source of un-alloyed pleasure. It removes all morbid matter from the stomach, purifies the blood, and imparts renewed vitality to the nervous system, giving it that tone and energy indispensable for the restoration of health. It operates upon the stomach, liver, and other digestive organs, mildle but newerfully are the stomach. mildly but powerfully, and soon restores them to a condition essential to the healthy discharge

to a condition essential to the healthy discharge of the functions of nature.

Elderly persons may use the Bitters daily as per directions on the buttle, and they will find in it a stimulant peculiarly adapted to comfort declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvening generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preservation while suffering from storagh dewho have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to bear up under her exhausting trials and responsibilities. Nursing mothers generally prefer the Bitters to all other invigorators that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength.

All those persons, to whom we have particularly referred above, to wit: sufferers from larly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoes, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial.

CAUTION.—We caution the public against using any of the many imitations or counterneing any of the many imitations or counter-feits, but ask for Hostetten's Celebrated STONACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.
